Dear who ever to whom this concerns, My name is Nina Hernandez i am a user of jail breaking and i fully support jailbreaking. I have an iphone and ipad and if i would not jailbreaked them i would have never know the wonderful advantages that my device now was because of jailbreaking. With the limitations that could come i could all so not use software like cydia or tweaks and most important software i couldn't run, computing capabilities wouldn't have access to.

Sincerely yours,

Nina Hernandez
